## KAREN BLIXEN

By National Museums of Kenya

Live Kenya's most epic saga of love, heartbreak and hope through the pages of history left open like a book in the home of Karen Blixen. An author, poet and artist whose story of triumph against odds to bring to life the dream of her deceased partner was turned into the Oscar winning film 'Out of Africa'. Now a museum in her name, her home is a tourist attraction for the hopeless romantic in all of us.

## THE FOREST ADVENTURE

By African Forest Lodges

Imagine yourself surrounded by towering lungs of nature feeding pure oxygen to fire your adrenaline rush as you speed down the longest zip line in Central and Eastern Africa. Or step off an e-bike and close your eyes to soak in the tranquility of little brooks bubbling over rocks after an exhilarating ride. You could also experience this nature trail on foot or horseback. The vast Kereita Forest is filled with thrills that are a must-do for every adventure seeker.

## CATCHING LIGHT AND TOUCHING FIRE

By Kitengela Hot Glass

If you want to experience first hand turning into a planet savior while creating bespoke pieces of art from glass, welcome to trial by fire at the heart of one of Kenya's biggest glass recycling projects. For years, Kitengela has been at the forefront of empowering the community by providing employment through teaching the unique process of dalle de verre in glass and bead making.

## OLARRO BY HERMES

By Vittoria

If we could put a 'reserved' sign on nature's most exquisite show on earth, it would be placed at the carbon neutral Olarro by Hermes. A private sanctuary within the Maasai Mara reserve where there are literally no limits to what you can do in the surrounding 20,000 acres of wilderness that are in the corridor of the annual wildebeest migration. Indulge in anything that takes your fancy from quad biking, bush dining, sundowners in the open, a visit to Maasai settlements or just relax to a massage in the most unique spa experience of your life.

## KAYAKING AT THE MUGIE DAM

By Ekorian's Mugie Camp

Water bodies are always the best place in the wild to see animals of all kinds coexist in harmony. Experience this on a kayak as spoonbill stork swim alongside and fish from the dam. You will sometimes share the water with herds of elephants escaping the midday heat. A picnic deck overlooking the dam makes for a scenic view and an enviable album of likes and comments. At Ekorian's, you also get the opportunity to be a part of ongoing wildlife conservation projects and leave an impact in a way unimaginable as a traveller.

## MOUNT KENYA; MORNING OF FLY FISHING FUN

By Tropic Air Safaris

We add the fly to your fly-fishing bucket list because there's nothing in the world that can match the air safari taking you to untouched locations inaccessible by land. Fly past Mount Kenya, the highest mountain in Kenya on your way to Lake Ellis, Lake Alice and Fox Tarn. You will catch more than fish; you will get reeled in by enchanting views of the highlands that make up Central Kenya.

## SUGUTA VALLEY; DAY TRIP BY HELICOPTER

By Tropic Air Safaris

Kenya's beauty can be seen from different perspectives and this one is heavenly in every way. You will forget the whir of the blades as the vast vista of Laikipia opens up under you. The first stop atop Silale Crater allows you to set foot and remind yourself that the experience is real. The tour continues down to Suguta Valley strewn with lava flows, salt plains and crocodile pools. We're leaving out a few so that you witness the diversity of Kenya's terrain in a single air safari that will make it something that plays back in your memory in HD every time you revisit the experience.

## BIG CAT SAFARIS

By Gamewatchers Safaris

This visit will take you to two of the three green destinations in Kenya and if you're a discerning ecofriendly traveler, just a reminder that there are only 40 destinations in the world on the IUCN green list of which we are a part of. In eight days you will get a feel of the best wildlife views to be seen in Africa shown to you by the best Maasai trackers and leaders of their communities. Most travelers come to this experience as tourists and come back again to visit friends.

Get to paddle along the Indo Pacific Humpback and the Acrobatic Spinner dolphins.

This is a completely new experience to Africa and Watamu is one of the only places worldwide where this can be done. Get up close and observe dolphins in their natural habitat in the beauty of Watamu's marine park.
